"Securitization Chain" chart created 1-31-13 by Wayne and Terri Adams, 57 Fitchburg Road, Ashburnham, MA, USA, to visualize how their "Null & Void" mortgage was likely sold in a complicated securitization chain. Adams' speculate that their Toxic Predatory Lender attempted to conceal and dispose of their "Null & Void" non-performing asset in a fraudulent attempt to manipulate a dormant account, pretending the toxic asset hadn't declined in value, in order to falsely beef up their balance sheet; selling their servicing rights and disposing of the "Null & Void" toxic mortgage; but, after all, a hole in the balance sheet is always a hole, whether you decide to see it or not.
